Our Message

ENAK Industries LLC are committed construction professionals, completing construction activities, managing work site safety, schedules, contracts, policy, procedures all in a scalable manner to meet the need of the work.

Our goal for ENAK Industries LLC is to be a strong member of the Tennessee small business community, be safe, and build things that meet the Client's needs. At our core we love solving challenging problems, keeping people safe, meeting or exceeding the customer's expectations, and solid financial returns on our hard work. Wholistically, we love being a part of something larger than ourselves. Connecting with others, with a need or want, that makes our places a better, happier, or at the very least more useful. This connection, this work, carries itself forward!

We are customer service focused, with our ultimate goal being to deliver exactly what the customer requested and to be the contractor of choice for future services.

Core Competencies
