Past Performances

Commercial Roofing	Renovation of Commercial building with replacement of damaged roofing sections, doors, frames, garage, and finishing elements.
Commercial Renovations	Remodeling of three (3) Park residences and seven (7) Park commercial buildings in multiple locations with multiple work fronts. Remodeling to include executing demolition of exterior framed walls, siding, and guttering. Installation of new exterior wall frames, siding, guttering, soffit, fascia, windows and painting of all installed material.
Commercial Renovations	Structural verification and remodeling of the historical Alvin York State Park Grist Mill building. Verification of structural integrity of Grist Mill building indicated insufficient lateral framing supports to allow for conventional remodel practices. A non-standard execution sequence had to be created whereby replacement of 10 Sqft section in a sixty (60) foot working at height environment.
Commercial Renovations	Renovating twelve (12) Park Guest Cabins, two (2) Park Guest service buildings, and one (1) Park Guest large cabin complex chimney systems. Setting up safe working-at-height areas (40+ feet above the ground), masonry cleaning and surface preparation, and application of mason sealant to prevent water intrusion on structures that are 20+ years of age.
Commercial Structures	Procure, erect, commission, and handover of fourteen (x14) steel storage facilities for the State of Tennessee - Department of Health. Requiring the procurement of material, transport to site, civil preparation, steel erection, steel and carpentry finishings at fourteen separate locations.
Residential Renovations	Surface preparation, mold conditioning, hydraulic surface cleaning, and sealant application of residential flooring system.
Commercial Marine	Installation of boat launch system for the Hapreth State Park. Required civil preparation, formation of multiple embankments, rip-rap installation, lifting/rigging/ placement of pre-cast members, carpentry/finishing.
Commercial Renovations	Renovation of historical Alvin York State Park Bible School to maintain the National Historical Register. Complete renovation of porch, gutters, roof ridge, cable trim and vent. Installation of civil drainage program to direct water away from Bible School foundation towards low elevation drainage point.
Commercial Renovations	Commercial renovations of the Fall Creek Falls Nature Center. Removal of primary entry point and installation of ADA automatic door system. Removal of exterior wall/window area and installation of ADA automatic door system. Installation of a connecting concrete waiting area and wall way to connect with existing walk way. All work included civil conditioning and water management, electrical installation, stucco siding, and gutters.
